

TEXON LEATHER GOODS & FURNITURE REINFORCEMENT

Texon cellulose products and non-woven thermoplastic stiffening materials are latex impregnated. They can be coated, laminated, coloured or adhesive coated with release paper and combined with linings, or leather, to enable the finished product to look good and have great shape. Our materials are used as separations, reinforcement and support in various leather goods and similar items. They do not grow, shrink, or delaminate and are lightweight compared to paperboard.

We supply some of the finest producers and leading brands of finished products such as handbags, briefcases, belts, travel luggage, wallets, golf bags, magazine stands, document trays and chairs. It is also ideal for bookbinding, stationery equipment.

Benefits of Texon Leather Goods & Furniture Reinforcement Solutions

- Available in a wide range of gauges from lightweight gauge for handbags to thicker gauges for suitcases and heavy duty items
- Hard wearing and very durable, and can be tailored in stiffness or softness according to requirements
- Excellent strength when formed and will hold its shape
- Will not delaminate or peel to improve wear of the product
- Always dimensionally stable, no shrinking nor growing even in moist conditions
- Lightweight compared to leatherboard or paperboard alternatives
- Easy to stitch and/or laminate with adhesives
- Abrasion resistance, for durability and outdoor exposure
